Feel safe, ride safe

See and be seen

For better safety and visibility in city traffic, Philips has designed CityVision Moto lamps with a distinctive, attention-grabbing orange effect in the headlight to get you seen. CityVision Moto bulbs also produce 40% more light so you can see further.

Be seen in traffic

- 40% more vision
- Distinctive orange effect in the headlight
- Designed for city riders
- Vibration resistance up to 10 G

Vibration resistance

- Philips moto lamps are made of high-quality quartz glass

State-of-the-art technology

- Respecting the high quality standards of ECE homologation
- Philips is the choice of major motorbike manufacturers.

PHILIPS

Highlights

Greater light-beam projection

Offering 40% more vision on the road, the Philips CityVision Moto headlights actively participate in increasing rider's security. Thanks to better visibility on the road, Philips motorcycle lamps allow for better obstacle recognition and accident prevention.

Distinctive orange effect

Philips CityVision Moto headlights have been specifically developed for city riders. Thanks to their distinctive orange effect, Philips motorcycle bulbs grab the attention of drivers and guarantee earlier recognition of the rider.

Designed for city use

Philips CityVision Moto headlights are specifically designed to improve the rider's safety in a city environment. The attention-grabbing orange effect and the 40% increase in light output allow a safer riding experience in traffic and play an active role in accident reduction.

High-quality quartz glass

UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and

vibrations, which eliminates the risk of explosion. Philips quartz-glass lamps (filament 2650° C and glass 800° C) are able to withstand severe thermal shock. With the capability for increased pressure inside the lamp, UV-quartz glass is able to produce a more powerful light.

Vibration resistant

Philips CityVision Moto lamps are designed with state-of-the-art technology to resist vibrations up to 10 G and last longer. Those motorcycle bulbs are mounted with an extremely resistant double coil filament to withstand a wide range of vibrations including physical shocks.

ECE homologation

Philips Automotive is dedicated to producing best-in-class products and services in the Original Equipment Manufacturer market as well as in the aftermarket. Our products are manufactured from high-quality materials and tested to the highest specifications to maximise the safety and driving comfort of our customers. Our entire production is meticulously tested, controlled and certified (ISO 9001, ISO 14001 and QSO 9000) to the highest ECE requirements.

Manufacturers' choice

For 100 years, Philips has been at the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting.

Specifications

Packaging Data

- Packaging type: Blister
- EAN1: 8727900398960
- EAN3: 8727900398977

Marketing specifications

- Product highlight: See and be seen
- Expected benefits: More light

Product description

- Designation: H4 CityVision Moto
- Range: CityVision Moto
- Technology: Halogen
- Base: P43t-38
- Application: High beam, Low beam
- Type: H4

Electrical characteristics

- Voltage: 12 V
- Wattage: 60/55 W

Ordering information

- Ordering code: 39896030
- Order entry: 12342CTVBW

Packed product information

- Gross weight per piece: 46.4 g
- Height: 12.900 cm
- Length: 9.500 cm
- Net weight per piece: 22.2 g
- Pack Quantity / MOQ: 10
- Width: 4.860 cm

Outer pack information

- Gross weight per piece: 464 g
- Height: 13 cm
- Length: 25.5 cm
- Width: 19 cm

Issue date 2016-07-27

Version: 5.0.1
