Feel safe, ride safe

See and be seen

For better safety and visibility in city traffic, Philips has designed CityVision Moto lamps with a distinctive, attention-grabbing orange effect in the headlight to be seen. CityVision Moto bulbs also produce 40% more vision.

Be seen in traffic

- Distinctive orange effect in the headlight
- 40% more vision
- Designed for city riders
- Vibration resistance up to 10G

State-of-the-art technology

- Philips is the choice of major motorbike manufacturers.
- Respecting high quality standards of the ECE homologation

Vibration resistance

- Philips moto lamps are made of high-quality quartz glass

PHILIPS

Highlights

Designed for city use

Philips CityVision Moto headlights are specifically designed to increase rider's security in city environment. The attention-grabbing orange effect as well as the light output increase by 40% allow a safer riding experience in traffic and actively participate in accident reduction.

Distinctive orange effect

Philips CityVision Moto headlights have been specifically developed for city-riders. Thanks to their distinctive orange effect, Philips motorcycle bulbs grabs driver attention and guarantee an earlier recognition of the rider.

ECE homologation

Philips Automotive is dedicated to producing best-in-class products and services in the Original Equipment Manufacturer market as well as in aftermarket. Our products are manufactured from high-quality materials and tested to the highest specifications to maximize the safety and driving comfort of our customers. Our entire production is meticulously tested, controlled and certified (ISO 9001, ISO 14001 and QSO 9000) to the highest ECE requirements.

High quality quartz glass

UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and

vibrations, which eliminates the risk of explosion. Philips quartz-glass lamps (filament 2 650° C and glass 800° C) are able to withstand severe thermal shock. With the capability of increased pressure inside the lamp, UV-quartz glass is able to produce a more powerful light.

Manufacturers' choice

For 100 years, Philips has been on the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting.

Vibration resistant

Philips CityVision Moto lamps are designed with state-of-the-art technology to resist vibrations up to 10G and last longer. Those motorcycle bulbs are mounted with an extremely resistant double coil filament to withstand a wide range of vibrations including physical shocks.

Greater light-beam projection

Offering 40% more vision on the road, the Philips CityVision Moto headlights actively participate in increasing rider's security. Thanks to better visibility on the road Philips motorcycle lamps allow for better obstacle recognition and accident prevention.

Specifications

Packaging Data

- Packaging type: Blister
- EAN1: 8727900398984
- EAN3: 8727900398991

Electrical characteristics

- Voltage: 12 V
- Wattage: 55 W

Lifetime

- Lifespan: 400h

Light characteristics

- Lumens: 1500

Marketing specifications

- Product highlight: See and be seen
- Expected benefits: More light

Product description

- Designation: H7 CityVision Moto
- Range: CityVision Moto
- Technology: Halogen
- Base: PX26d
- Application: High beam, Low beam
- Type: H7

Ordering information

- Ordering code: 39898430
- Order entry: 12972CTVBW

Outerpack information

- Gross weight per piece: 350 g
- Height: 13 cm
- Length: 19 cm
- Width: 19 cm

Packed product information

- Gross weight per piece: 35 g
- Height: 12.900 cm
- Length: 9.500 cm
- Net weight per piece: 12.4 g
- Pack Quantity / MOQ: 10
- Width: 3.500 cm
