

Product information

Marine Diesel Bacteria Stop

PI 14/12/06/2017

Description

Highly effective biocide with a wide activity spectrum against bacteria, yeasts and molds. The biocide does not form any corrosive combustion products and has been tested by leading engine manufacturers. **Use biocides safely. Always read the label and product information before use.**

Properties

- active in preventing bacterial infestation
- decontaminates infested tank systems
- highly effective

Technical data

Base	Biozid / biocide
Color / appearance	farblos, klar / colourless, clear
Density at 15 °C	0,861 g/cm ³
Viscosity at 40 °C	< 7 mm ² /s
Flash point	63 °C
Shelf life in original sealed container	5 Jahre / 5 years
Form	flüssig / liquid
Odor	charakteristisch / characteritic

Available pack sizes

500 ml Can sheet metal	25058 D-F-I-E-GR
500 ml Can sheet metal	25059 GB-DK/N-FIN-S-RUS

Our information is based on thorough research and may be considered reliable, although not legally binding.

Areas of application

For preventive use and for de-infesting contaminated tank systems on vessels and in storage tanks. Use a 1:1000 booster dose for systems which are already contaminated. One measuring cup (25 ml) is sufficient for 25 l of diesel fuel. As a preventive 1:4000 application, one fill of the dosage chamber (25 ml) is sufficient for 100 l of diesel.

Application

Use a 1:1000 booster dose for systems which are already contaminated. One measuring cup (25 ml) is sufficient for 25 l of diesel fuel. As a preventive 1:4000 application, one fill of the dosage chamber (25 ml) is sufficient for 100 l of diesel. Shake container before use.

Comment

Complies with MTU requirements and is approved for the use of all MTU engines.
