

Product information

Pro-Line Silicone Spray

PI 5/21/04/2015

Description

Silicone spray is a mineral oil and grease-free release agent, lubricant and preservative, which is silicone-based. Suitable for indoor and outdoor applications. Protects, lubricates, maintains and insulates. Does not stain. Acts anti-static (dust repellent). It eliminates squeaks, creaks and stiffness and provides long-lasting protection against wear. Versatile, especially in work areas where oil or grease containing lubricants are undesirable, or interfere with the subsequent post-processing.

Properties

- impregnates
- outstanding release agent during inert gas shielded arc welding
- insulates
- eliminates squeaks
- pleasant odor
- clean application
- protects and cares for all plastics

Technical data

Base	Siliconöl, Spezialbenzin / silicone oil, special petrol
Propellant	Propan, Butan / propane, butane
Color / appearance	farblos / colourless
Density at 20 °C	0,58 g/cm ³
Form	aerosol, flüssig 7 aerosol, liquid
Odor	charakteristisch / characteristic

Areas of application

Versatile use such as for plastics, rubber, metal, wood, etc. Eliminates squeaks, creaks and stiffness and provides long-lasting protection. Serves as an assembly aid, e.g. for hose connections and seals. Common areas of application: Plastic parts such as bumpers, radiator grilles, spoilers, protective strips, vinyl car roofs etc. receive high gloss and are not brittle. Rubber parts such as door and hood rubber, rubber bumpers, bumpers, radiator hoses, etc. are maintained, do not brittle, freeze and do not stick. Protects electrical contacts from moisture. Sliding roof guides, seat rails, rollers of safety belts etc. run smoothly. Eliminates squeaking and creaking noises between different materials, e.g. metal / plastic etc.

Application

Spray the components to be treated thinly and evenly, if required, repeat treatment. Do not process in proximity of paint places. Also, ensure that the Pro-Line Silicon Spray is not sprayed directly onto foodstuff and machine parts that come in direct contact with foodstuff. Due to the folding spray pipe a precise spraying is guaranteed. If the spray tube is folded in, a flat spraying is possible. Also sprays overhead

Available pack sizes

400 ml Can aerosol	7389 D-GB-I-E-P
400 ml Can aerosol	9916 GB-DK-FIN-N-S
