

Technical Data Sheet

All-Round Ultimate Performance

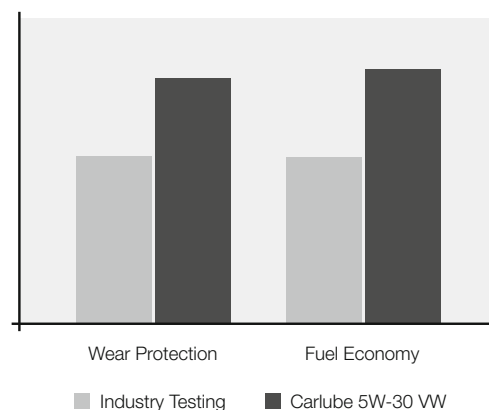

Tetrosyl Carlube 5W-30 VW is an ultra-high performing engine oil that has been developed to provide maximum engine protection, fuel economy savings and meet the exacting demands of Volkswagen demanding 50400/50700 performance level. This oil is suitable for use in older vehicles as well as the most modern engines.

Performance Benefits

As a lubricant that meets the highest performance engine oil specification, Carlube 5W-30 VW provides a number of key benefits to vehicle owners, including superior engine cleanliness, wear protection, fuel economy and after-treatment device compatibility.

Carlube 5W-30 VW delivers outstanding engine cleanliness by preventing the formation of harmful engine sludge and deposits. Sludge can cause oil starvation and increased engine wear, and the build-up of deposits can negatively impact fuel economy, performance and engine life. Carlube 5W-30 VW keeps key components cool, clean, lubricated and working at their best.

As a Low SAPS lubricant specifically designed for use in engines with after-treatment devices, Carlube 5W-30 VW protects both the engine and the environment. Using an incorrect or inadequate oil with systems such as particulate filters and catalysts can reduce vehicle efficiency and negatively affect fuel consumption, contributing to component damage and even engine failure.

Furthermore, the lubricant ensures that the expensive after-treatment devices remain effective for the longest duration possible, avoiding costly downtime. This shields the environment from harmful pollution and contributes towards cleaner air quality, when compared to a traditional high-SAPS engine oil.

In addition to providing engine protection and cleanliness, Carlube 5W-30 VW demonstrates exceptional fuel economy improvements, as demonstrated in the chart. Delivering an impressive 1.7% in fuel reductions, Carlube 5W-30 VW can save a vehicle owner over 2 Euro cents every time they fill up.

Developed to meet the stringent Volkswagen 50400/50700 performance requirements, Carlube 5W-30 provides ultimate engine protection, engine cleanliness and fuel economy improvements.

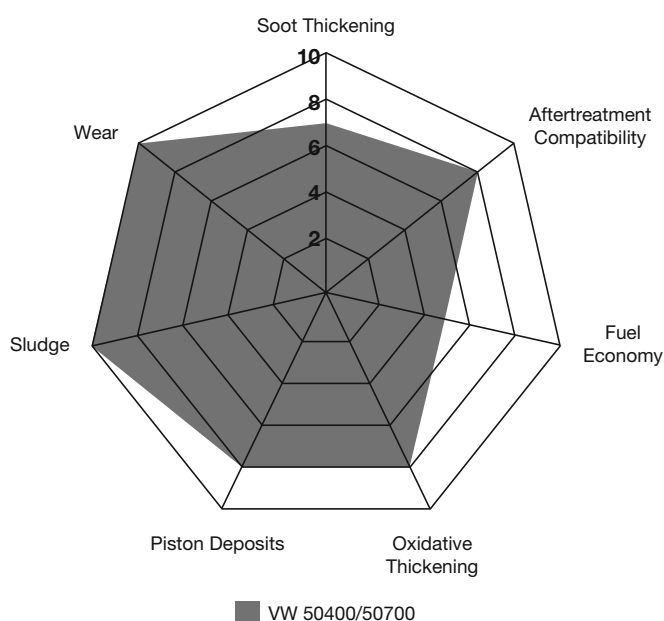

Carlube 5W-30 VW Performance Specifications

Issuing Body	Performance Specification
Volkswagen	50400/50700

The chart below demonstrates the all-round performance offered by the VW 50400/50700 specification. After the introduction of new emission limits for passenger cars in 2005, many cars were fitted with exhaust gas after-treatment devices. The VW 50400/50700 specification ensures that certified oils are fully compatible with these systems, maximising engine performance, efficiency and lifespan.

Volkswagen 50400/50700 Performance

Properties

Property	Result
SAE Viscosity Grade	5W-30
Density @ 15°C	0.8527
Kinematic Viscosity (mm ² /s)	@40°C 71.57
	@100°C 11.98
Viscosity Index (VI)	165
Pour Point (°C)	-54
Flash Point (°C)	234
Sulphated Ash (%)	0.682

Product Reference

Size	Part No	Barcode
1 Litre	XVT010	
4.55 Litre	XVT455	
20 Litre	XVT020	
199 Litre	XVT199	

Environmental Protection & Safety Precautions

Do not pour used surplus oil down sewers or drains. Dispose of used or surplus oil at your nearest oil-recycling bank. Dispose of empty packs in a responsible manner. Store container in an upright position and secure when transported. Wear goggles if splashing risk. Avoid exposure to oil mist. When using oil do not eat, drink or smoke. Wash hands after use.
