Suitable for removing dust and dirt from the precision mechanics and electronics.

TechnicalData

Usage Instructions

Application temperature: +5°C to +30°C. Shake can well before use. Do not tilt the spray can by more than 30°. Point the spray head at the parts to be cleaned and remove dirt and dust with short spray blasts. The compressed-air spray is flammable. Before using it on electronic components, disconnect the mains plug and ensure adequate ventilation after use. Read the safety and technical data sheet!
